Mr. Jubinville naturally fears that his married existence will be abbre-viated by Lutz's appearance, but Lutz de-clares that he is willing to let them live together if they will leave him alone. Lutz is employed as foreman of the gang of men that has been welding ralls for the Rochester Street Railway Company and is doing well. ALIVE WITH A BROKEN NECK. John Moriarty Walked Six Miles to a Hospital.

NEW YORK, Dec. 9.—One of the most remarkable cases of a man living with a broken neck, was called to the attention of the surgeons of St. Joseph's Hospital lass night, when John Moriarity, sixty-five of Columbia as soon as that body is reorganized. Among them is a bill, introduced by Senator James McMillan of
Michigan, providing for the erection of a
municipal building and court house, at a
cost of \$2,500,000. Judiciary Square is familes to the hospital.

The attending surgeons were amazed at the man's condition. They consider it one of the most remarkable cases on record. The physicians are utterly at lost to understand how he could walk such a distance in his condition. The surgeons have de-cided that in order to save his life he must undergo a surgical operation of the most delicate character.

Five weeks ago Moriarity fell from a scaffold, a distance of twenty feeet. He was rendered unconscious, and remained so for two weeks. When he regained con-sciousness it was thought that he was get-ting well, although he complained of severe pains at the base of his spine. Finally the pain became so great he started for the hospital. When he reached the institution his condition was very much weakened, but it is hoped that his wonderful vitality will enable him to withstand the operation of resetting the fractured vertebrae.

Bradley lest night gave out his first-utterance on the burning of the negro Dick Coleman at Maysville. This came in reply to an interview by Judge James P. Tarvin, of Covington, criticizing the State au-thorities and holding them responsible for

The governor yesterday afternoon wired Tarvin asking him if he had been correctly reported, and received the following reply: 'The penalty given Coleman may be considered just, but the failure of the State authorities to protect him after he was in custody is wrong, and any citizen has a right to criticise it. The fact that he was a negro, hardly above a brute, is only the more reason for protecting him.
